## NOTICE OF DEFECTIVE APPEAL BRIEF

The reply filed on October 18, 2006 is not fully responsive to the prior Office Action because of the following matter(s): A concise explanation of the subject matter defined in each of the independent claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters. For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of paragraph (c)(1)(vii) of this section, every means plus function and step plus function as permitted by 35 U.S.C. 112, sixth paragraph, must be identified and the structure, material, or acts described in the specification as corresponding to each claimed function must be set forth with reference to the specification by page and line number, and to the drawing, if any, by reference characters.

In this case, Applicant fails to provide concise explanation of the subject matter in the independent claims. Specifically, the step of "determining the transmission speed for the destination terminal" is not disclosed in page 7, lines 17-23 as stated. This particular area of the specification discusses the administration computer maintaining hub speed information. It does not determine the transmission speed for the destination terminal as claimed.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
